About the Careers Are Everywhere Activities Workbook

Careers are everywhere. More than just the title of this career-related elementary-level activities workbook, the fact is that children start the process of exploring the world of work as early as the elementary grades. With each class they take, with each life experience, they gain a greater awareness of the nature of work and begin to form ideas about their future career roles.

The activities in this workbook are intended to be fun and challenging. They have been designed around the building blocks of the elementary National Career Development Guidelines with the goal of raising career awareness. Specific objectives of the workbook include the concept of self-knowledge, the development of a basic understanding of interests, likes and dislikes and how to interact with others. The various activities are also designed to raise awareness of the relationship between work and learning, the awareness of how work relates to the needs and functions of society and the interrelationship of life roles. And some of the activities are just plain fun. The elementary grades are also a good time to introduce the importance of personal responsibility, good work habits and the benefits of educational achievement.

This is the second edition of the Career Activities workbook from the Career Information section of the Arkansas Department of Workforce Services Labor Market Information unit. We encourage counselors and teachers to use this workbook with students and share with us any unique teaching methods or lesson plans you develop so that we might share them with your colleagues in the state.

If students would like to know more about a particular occupation they see in this workbook, they can view short video clips on their computer at our Video Corner also available from LMI. The videos provide roughly two-minute clips on the duties, interactions and workplace environments of over 450 occupations, 250 of which also have Spanish language narration.

Detailed information about Arkansas occupations can also be found at www.discover.arkansas.gov under the Occupation Explorer tab.

Special appreciation is extended to the Labor Market and Career Information Department of the Texas Workforce Commission for permission given to the Arkansas Department of Workforce Services in reproducing this booklet.

Introduction

Awareness is the first process for students to begin exploring career possibilities. This activity book tries to help them develop Self-knowledge, Educational and Occupational Exploration, and Career Planning awareness while exploring sixteen career clusters. Career Clusters are groupings of jobs that share common characteristics. By looking at clusters of jobs, a student may find a variety of careers with similar characteristics in which they may be interested. The Career Clusters shown in this activity book were developed by the US Department of Education. These clusters and associated careers and pathways can be viewed online at <https://careertech.org/careerclusters>.

The activities in this book were prepared with the National Career Development Guidelines (NCDG) in mind to help students achieve the following twelve goals for elementary grades.

Self-Knowledge:

1. Knowledge of the importance of self concept
(Self-Knowledge, pg.5; My First Resume, pg.9)
2. Skills to interact with others
(Assembly Line, pg.29)
3. Awareness of the importance of growth and change
(The Future, pg.7)

Educational and Occupational Exploration:

4. Awareness of the benefits of educational achievement
(Interview, pg.35)
5. Awareness of the relationship between work and learning
(Doghouse, pg.11; Choose an Occupation, pg.17; Interview, pg.35)
6. Skills to understand and use career information
(Matching, pg.13; Choose an Occupation, pg.17; Crossword, pg.23; Fight the Fire, pg.25)
7. Awareness of the importance of personal responsibility and good work habits
(Assembly Line, pg.29; Work Habits, pg.33)
8. Awareness of how work relates to the needs and functions of society
(Definitions, pg.21)

Career Planning:

9. Understand how to make decisions
(Interview, pg.35; True/False Quiz, pg.38)
10. Awareness of the interrelationship of life roles
(Multiple Roles, pg.27)
11. Awareness of different occupations and changing male/female roles
(The Future, pg.7; Definitions, pg.21)
12. Awareness of the career planning process
(Interview, pg.35; True/False Quiz, pg.38)

The activities can stand alone or be incorporated into a career curriculum. Self-knowledge, exploration and planning are life-long activities that begin at an early age.

Can You Haiku?

Haiku poems are unrhymed traditional Japanese poetry.

They are very short, just 3 lines, with 17 syllables total. The first and third lines have 5 syllables and the second line has 7 syllables. Most Haiku poems describe some detail of everyday life with a personal reaction. The poems have two sections. The poet moves from description to reflection. Try to create an image of yourself or a career with just a few words following the Haiku format. Here are 3 samples to help you get started:

Susan

A large broad smile
Her wide open brown eyes blink;
Happy in her skin

The Accountant

Adding, subtracting
Calculator on the desk;
Numbers never stop

The Vet

The animals come
Each day the doors open wide--
Owners look like them
